Broadband Terms and Conditions

May 2018

FIRST UTILITY LIMITED (“FIRST UTILITY”) DOMESTIC TERMS AND CONDITIONS FOR TELEPHONY AND BROADBAND SERVICE

Effective from 30th April 2018

The definitions within Annex 1 shall apply to any Contract subject to the following terms and conditions.

TELEPHONY AND BROADBAND SERVICE TERMS AND CONDITIONS

Please take a few minutes to read carefully the terms and conditions set out below for the Products and Services you have ordered from First Utility.

By using your Telephony and Broadband Service (collectively the “**Service**”) you agree to the terms and conditions set out below that relate to the Service including any changes to them, or to the Service, which are made in accordance with these terms and conditions.

PART 1: PLAIN ENGLISH SUMMARY

First, here is a plain English summary of some of the main points:

A. The Service

- Your subscription for your Service will commence on the Commencement Date.
- Your Contract is subject to a Minimum Period. However, the length of the Minimum Period is confirmed when you order the Service and will be confirmed again by us in writing shortly after you have placed your Order.
- You must keep the Service you have chosen for the whole of any Minimum Period, unless you or we are allowed to end this Contract earlier (Condition 10).
- The Service consists of the Telephony Service and Broadband Service. Therefore, if you were to cancel one element of the Service (to allow you to switch that element of the Service to another provider) we would automatically cancel the other element of the Service (for example if you sought to cancel the Broadband Service, that would automatically result in us cancelling your Telephony Service). For further details, please contact our Customer Services department. The contact details for Customer Services are set out in the Contact Us section below.

Use of the Service

- You are responsible under this Contract for the use of Service by you or any person you allow to use it. Whilst our Broadband Service offers totally unlimited broadband, your use of both the Telephony and Broadband Service must comply with Condition 2.
- To be clear, we want you to enjoy your Service freely. In terms of your Broadband Service this means that you can enjoy it without having to worry about caps and limits, so there is no cap on how much you can download or upload and we won't slow your broadband down at peak times. However, please note that you must comply with the obligations set out at Condition 2 of these terms and conditions. In particular, please note that:
 - a) You must comply with any instructions we give you about the Service and you acknowledge that we, our agents, authorised contractors or sub-contractors may give you instructions from time to time which we (or they) believe are necessary for health, safety or the quality of other telecommunications services provided to you by us.

- b) As the Service is provided to other users and we owe a duty to them as a whole to preserve our Network integrity and to avoid Network degradation. Accordingly, if, in our reasonable opinion, we consider it necessary to maintain Network integrity or prevent Network degradation we may change your Service, (including without limitation, your broadband Transmission Speed) or manage your use of, or access to the Service as we see fit in the circumstances. These reasons include but are not limited to, any circumstances where you are running an application or program that places excessive bandwidth demands on the Broadband Service for continued periods.
- Your Service may also be restricted or ended if you breach the Contract (for example, for breach of Condition 2 or in the circumstances set out in Condition 10). We will endeavour to notify you in writing before this happens, unless we reasonably believe that your Service is being used for unlawful or improper purposes (for example if there is an unusual spike in activity on your Telephony Service, to prevent fraud and/or bill shock, we may restrict the Service until we can contact you to determine whether the Charges have been incurred by you or have been incurred fraudulently).
 - If your Telephony Service is restricted or ended for any reason you may not be able to make or receive all calls through the Call Service (except if you are dialling emergency service numbers such as 999 and 112).

Provision of the Service, Products and prices

- The Service is variable, even during your Minimum Period. This allows us to improve the Service for you. However, if we reduce the level of service provided by your chosen Product and you are materially disadvantaged by this you will have a right to end this Contract (Conditions 6 and 10).
- Our prices and Products can also change, even during your Minimum Period. We will give you at least 30 days' notice in writing of: (i) any increase in the monthly subscription price of the Service; or (ii) any other price increase which is likely to be to your material disadvantage unless the price increase results from you changing your service or is required for legal or regulatory reasons. We will also let you know about any other price changes in writing or by publishing details on the Price List. If you are not the payer of your bill, you should notify the payer of any notice of price increase we send you. If you wish to end this Contract for these reasons, then you need to let us know within 30 days of notice of the change (Conditions 6 and 10).
- You may downgrade your Call Service plan for your Telephony Service by giving us at least 30 days' prior notice in accordance with Condition 10.7. If you do not move to a particular Call Service plan with agreed rates, then you will default to our basic Call Service and our standard call rates shall apply. Please see our Price List for further details.
- You may change your Optional Features for your Telephony Service (for example, voicemail) in accordance with Condition 1.20.

Minimum Period, the Cooling Off Period and termination

- You have the right to cancel your Order within 14 days from the day after the day on which the Contract has been entered into by contacting Customer Services. The contact details for Customer Services are set out at the start in the Contact Us section below. Please note that if you've agreed to, and we have already started to provide the Service by the time you cancel it, you'll have to pay us the full cost of the Services you've received up to the point when you notify

us. If we've provided you with a Router, the contract won't end until you've returned the Router to us in accordance with the process set out at Condition 10.15.

- If you end your Contract during the Minimum Period (other than where you have a right to end it – see Condition 10.3) then we may charge you an Early Termination Charge. We may charge this amount directly to any Credit or Debit Card the details of which you have given to us or alternatively apply this to your next bill. By entering into this Contract, you are authorising us to do this. We will give you reasonable notice in writing before making these charges. For further information about these charges, please see the Price List. The contact details for Customer Services are set out in the Contact Us section below.
- If you want to terminate the Contract outside the Minimum Period, you must give us notice in accordance with the process set out at Condition 10.
- Please note that, regardless of whether you are inside or outside your Minimum Period, if you terminate or cancel your Contract at any time (other than during the Cooling Off Period) and we are not at fault, you will be charged a Cease Charge. For details, please see the Price List.
- Our Price List sets out the discounts in relation to the Charges that are available to First Utility energy customers who enter into a Contract on or after 3rd July 2017, the level of discount will vary depending on the customer's energy tariff. Please see our Price List for further details.
- If you are a non-energy Customer and subsequently enter into an Energy Contract, then your Charges may be adjusted to reflect the level of discount that is applicable to your energy tariff. Please see our Price List for further details.
- If you are a First Utility energy customer on the Commencement Date and you subsequently terminate your Energy Contract with us, then any discount in relation to the Charges that you were entitled to as an energy customer may cease to apply from the date that your Energy Contract is terminated. Please see our Price List for further details.
- If you are a First Utility energy customer on the Commencement Date and:
 - (a) you subsequently change your energy tariff; or
 - (b) the fixed term of your energy tariff expires and you move onto our standard variable energy tariff,

then, from that date, any discount in relation to the Charges that you were entitled to as an energy customer may be adjusted to that applicable to your new energy tariff as set out in our Price List.

- Any adjustment to the discount made in accordance with Conditions 5.13 or 5.14 shall not entitle you to cancel this Contract during your Minimum Period without incurring the Early Termination Charges.

Will I be accepted as a Customer and how will you manage my account?

- You confirm that you are at least 18 years old.
- You may not be accepted if you owe money to another part of our business (for example, if you are late paying us the charges due under your Energy Contract with us and are seeking to commence a contract with us for the Service, or vice-versa) or your credit score is unsatisfactory, or if you do not pay by direct debit. We can administer your account as we believe reasonable depending on the result of that or any future scoring. This may include applying different payment terms to your account. We may use information from, or supply information to, outside agencies for credit assessment purposes. We will also use reasonable practices to set a call spend limit on your Telephony Service account.

Moving House

- If you change your Address you must contact Customer Services.
- If you change Address, we will do our best to move the Service which you have subscribed to your new Address. However, if this is not possible and your Service is not available at your new Address then the Service may be cancelled. In these circumstances you may be charged the Early Termination Charge.
- If we are able to provide you with the same Service as provided at your previous address or if find you an alternative Service, we will start you on a new Contract with a new Minimum Period. We may also charge you any costs that we reasonably incur as a result of the transfer. We will tell you about the amount of this charge before charging you.

1. The Service and who can get it?

- 1.1 The Telephony Service and Broadband Service form the Service. You cannot take one element of the Service without the other.
- 1.2 The Telephony Service includes both the Call Service and the Line Rental Service.
- 1.3 The Service is for residential use and not for business use.
- 1.4 The Service will be provided at the residential address that you notify to us from time to time (“**Address**”). This Address must be within the United Kingdom (excluding Northern Ireland). You must be the account holder for your household’s existing telecommunications services or be authorised by the account holder to register for the Service. You can only have one subscription to your Address. The telephone line will be provided on one line at your address unless we tell you otherwise.
- 1.5 We offer a number of variations of our Service subscription Products, the full details of which are available from time to time on our Price List.
- 1.6 To enter into a Contract with First Utility you must be 18 years old or over. We may require you to provide us with proof of your identity and address. You agree that the details that you provide to us shall be true, accurate and complete.
- 1.7 The Service is subject to a Minimum Period. The length of the Minimum Period (usually 12 or 18 months after the Commencement Date) is as agreed when you order your Service and will be confirmed by us in writing shortly after you have placed your Order.
- 1.8 When we provide you with the Service, we will use the reasonable skill and care of a competent service provider, but we cannot guarantee that the Service will never be faulty. This is because the Networks, which allow you to access the Service, may be provided by other third party companies over which we do not have control.
- 1.9 The Service is not available to Customers:
 - (a) who do not pay by direct debit;
 - (b) registered with BT Basic or other incompatible services or products; or
 - (c) who are outside our Network area.

Availability of the Broadband Service only

- 1.10 Availability of Products will vary depending on the location of your Address. In order to provide you with the Broadband Service, we need to test your telephone line to ensure that broadband is available in your area. You are responsible for paying for any work that needs to be carried out on your telephone line past the master socket in your Premises in order to receive the Broadband Service. When we activate your Broadband Service you accept that there may be a temporary loss of your telephone line – this is usually no more than an hour.
- 1.11 When we provide you with the Broadband Service, we will use the reasonable skill and care of a competent service provider, but we cannot guarantee that the Broadband Service will never

be faulty. This is because the Networks, which allow you to access the Broadband Service, may be provided by other third party companies over which we do not have control.

Availability of the Telephony Service only

- 1.12 You must have a working telephone line in your home. If you don't have a working compatible telephone line, we may arrange for a new telephone line to be installed or an existing telephone line to be activated ("**New Phone Line**") and you will usually be charged a new line fee ("**New Line Install Fee**"). The New Line Install Fee will be charged in accordance with the Price List as published on the day you order your New Phone Line. Your New Line Install Fee will be applied to your first or second bill. First Utility will not install or arrange for the installation of a New Phone Line where extensive new line construction over and above standard needs is required.
- 1.13 On receipt of your application for the Telephony Service, and provided you are eligible, we will switch your telephone services to our Telephony Service. We will notify you in writing of the estimated activation date for your Telephony Service. If you have an existing compatible line, this normally takes 10 working days from the date when the order is accepted. If we are unable to make the switch for any reason we will contact you. If you require a new line to be set up, and we agree to do this for you, your Telephony Service will normally take approximately 10 working days to be activated from the date you place your Telephony Service Order.
- 1.14 You will be able to access the emergency services using 999 or 112 using the Telephony Service except where you are using a cordless handset and the power supply is interrupted.
- 1.15 If your telephone line is faulty, you will need to contact Customer Services to arrange repair and maintain the line and/or connection in accordance with this Contract.

International and premium rate access

- 1.16 You can use the Telephony Service to make international calls. However, calls to some or all international or premium rate numbers may be barred. Please refer to the Price List for details. If you need more information on international calls and premium rate access, please contact Customer Service. For details on how to contact Customer Services, please see the Contact Us section at the start of Part 2.

Use of indirect access codes

- 1.17 You cannot elect to use indirect access codes to facilitate using another provider for some or all of your calls. If you endeavour to do so, we reserve the right to restrict or disconnect your Service.

Your telephone number

- 1.18 You accept that you do not own any telephone number we make available to you under your Contract. You may request us to 'port' your number from another communications provider and we will try to do this wherever it is reasonably practicable. However, you accept that this may not always be possible. In these circumstances we may have to provide you with a new number. We will notify you before we change your telephone number.

Optional Features

- 1.19 You may add a range of additional features to your telephone line at an additional cost ("**Optional Features**"). Optional Features includes, for example voicemail. For the full range of Optional Features please see the Price List.
- 1.20 You will be charged for each Optional Feature you choose from the time that it is provided to you. You will be charged either on a monthly subscription basis or on a per use basis,

depending on your chosen Optional Feature(s). For Optional Feature services which are provided on a monthly subscription basis you must keep and pay for each Optional Feature for at least 30 days unless we tell you otherwise.

2 Using the Service

- 2.1 The Service for which you enter a Contract will start on the Commencement Date and will continue until terminated in accordance with Condition 10 of these Conditions. Your Contract will also be subject to a Minimum Period.
- 2.2 The Service is for residential use. It must not be used for any commercial or business purposes or for any activities not reasonably expected of someone using the Service for residential domestic purposes.
- 2.3 You acknowledge and agree that your use of the Services, or anyone you authorise to use the Service, must be in compliance with any relevant laws that apply and the terms set out in this condition.
- 2.4 You will be registered as the primary user but you can nominate additional users to manage your account provided they are members of your household and they consent.
- 2.5 You must comply with any instructions we give you about the Service and you acknowledge that we, our authorised contractors or our agents may give you instructions from time to time which we (or they) believe are necessary for health, safety or the quality of other telecommunications services provided to you by us.
- 2.6 You, and anyone you authorise to use the Service, must not use the Service:
- (a) with regards to:
 - i. the Broadband Service for making, sending data, communicating, knowingly receiving, uploading, downloading or using any material; or
 - ii. the Telephony Service making any calls,
that are offensive, abusive, indecent, defamatory, obscene, menacing, cause annoyance, inconvenience, needless anxiety or are intended to deceive (including to our Customer Service operators);
 - (b) to download, possess or transmit in any way, illegal material;
 - (c) to engage in criminal, illegal or unlawful activities;
 - (d) to send or procure the sending of any unsolicited advertising or promotional material;
 - (e) to violate or infringe the rights or property of any person, including rights of copyright and any other intellectual property rights, privacy or confidentiality;
 - (f) to artificially inflate traffic, send, communicate, knowingly receive, upload or download data or make any calls in such a way or in such amount that you know or ought reasonably to know may have a material adverse effect on the integrity of the Network (or any part of it) or impact on other customers' services;
 - (g) for any purpose which we may reasonably notify you of, from time to time, due to the introduction of new legislation or applicable regulations; or
 - (h) other than in accordance with this condition and, where relevant any internet standards.
- 2.7 We make every effort to ensure the security of your communications using the Service. You are however advised that for reasons beyond our control, there is a risk that your communications

may be unlawfully intercepted or accessed by those other than the intended recipient. For example, your communications may pass over third party Networks over which we have no control and if you are connected to an analogue Network, there is no protection for your communications over the air interface. If you are connected to the digital Network, your communications over the air interface with our systems are encrypted providing a greater level of protection, but even this cannot be guaranteed.

- 2.8 As the Service is provided to other users and we owe a duty to them as a whole to preserve our Network integrity and to avoid Network degradation. Accordingly, if, in our reasonable opinion, we consider it necessary to maintain Network integrity or prevent Network degradation we may change your Service, (including without limitation, your broadband Transmission Speed) or manage your use of, or access to the Service as we see fit in the circumstances. These reasons include but are not limited to, any circumstances where you are running an application or program that places excessive bandwidth demands on the Broadband Service for continued periods.
- 2.9 Any calls you make to Customer Services may be recorded and so you hereby grant us, or our agents, the right to monitor or record your calls, emails or SMS for our lawful business purposes, such as quality control and training, to prevent unauthorised use of our telecommunications systems, to ensure effective systems operation and in order to prevent or detect crime.
- 2.10 We may modify or temporarily suspend the Service, or part of it, to the extent necessary for us to carry out maintenance, technical repair, enhancement or emergency work. We will try to minimise the impact of this on your use of the Service and we will restore the Service to you as soon as we can. Where possible, we will endeavour to notify you of such activities in advance.
- 2.11 We reserve the right to investigate any suspected violations of this clause.
- 2.12 If you or an individual who you have knowingly or unknowingly allowed to access our Services act in breach of Condition 2, we may without prior notice:
- (a) issue a formal warning to you, specifying a breach of this Condition and requesting that you comply with its terms;
 - (b) temporarily restrict or suspend your access to any of the Service;
 - (c) terminate your account; and/or
 - (d) take any other reasonable action.
- 2.13 If we restrict or suspend your Service, we may immediately do so until further notice without compensation if:
- (a) we reasonably suspect that you are in breach of these Conditions; or
 - (b) you are in breach of your obligation to pay the Charges and have not remedied the breach within seven (7) days of you being reminded to pay your bill. You should also note that if you have subscribed for our Service and fail to meet your payment obligations, your use of the Telephony Service may be restricted and you will not be able to receive incoming calls or make outgoing calls (except for emergency calls) and you will not be able to use the Broadband Service; or
 - (c) we are obliged to comply with an order or request of the UK Government, the emergency services organisation or other competent authority; or

- (d) we have reasonable cause to suspect fraudulent use of a payment card, whether a Credit or Debit Card or otherwise; or
 - (e) where we monitor activity on the Network in accordance with this condition, we identify an unexpected peak in use of the Service due to, for example, higher than usual call volumes, unusually high rates of calls to premium numbers or unusual usage of Service, which indicates fraudulent use of the Service that the account holder may not be aware of.
- 2.14 If we suspend the Service under this Condition 2, your Contract will still continue and you shall reimburse us our costs and expenses reasonably incurred in restricting the Service and/or recommencing them. In addition, you must pay all Charges due from you under your Contract incurred prior to the time when your Contract is properly terminated. If we restrict the Service, we will not provide it again until you confirm that you will use the Service only as agreed in this Contract.
- 2.15 If we exercise the right to restrict (or bar your access to) the Services, this shall not affect our right to terminate your Contract under Condition 10.

Use of the Broadband Service only

- 2.16 We may require you to reimburse us for any reasonable and foreseeable losses, costs and expenses which we incur as a direct result of the misuse of the Broadband Service or the Router or other equipment provided by us or on our behalf for use in conjunction with the Broadband Service by you or anyone you have allowed to use the Broadband Service.
- 2.17 If your Telephony Service is disconnected for any reason, you will lose your connection to the Broadband Service and there may be a delay in being reconnected to the Broadband Service. If a re-connection fee is payable, we will tell you the amount of this fee before charging you. You will be charged for the Broadband Service throughout this period, unless the disconnection or delay in reconnection has been caused by us, our authorised contractors, or our agents.
- 2.18 If you wish to use a modem, router or any other equipment that we have not supplied to you in order to access the Broadband Service we cannot guarantee that the Broadband Service will work with these and we will not provide technical support in relation to the same.
- 2.19 In addition to clause 2.6, you must not use the Broadband Service:
- (a) to intentionally impair or attempt to impair, without authorisation, the operation of any computer, prevent or hinder access to any program or data held in any computer or to impair the operation of any such program or the reliability of any such data; or
 - (b) to prevent legitimate users from using or enjoying the benefit of the Broadband Service or any other similar service, including but not limited to, attempts to 'flood' the Network or to disrupt users from connecting to, accessing or using the Broadband Service (also referred to as **Denial of Service Attacks**); or
 - (c) for the purposes of intrusion, or attempts to intrude, into the equipment and systems of any third party, or the mounting of any harassment campaign, including Denial of Service Attacks.
- 2.20 We recommend that you install your own security software as we do not provide anti-virus software as part of the Broadband Service. First Utility is not responsible for any consequences of your failure to employ appropriate security measures to prevent unauthorised access by any third party to the Service.
- 2.21 Subject to availability (see Condition 1.10), you may upgrade the Broadband Service that you subscribe to (for example, from copper to fibre or to increase the speed of the Broadband

Service) at any time and are not required to give us any notice to implement the change. Customer Services will arrange the upgrade as soon as is reasonably practicable and a new Minimum Period will begin.

3. Equipment and faults affecting the Service

- 3.1 You must ensure that any equipment which you use in connection with your Service is in good working order and conforms at all times to all applicable regulations and laws. You agree to provide us with information about your equipment that we reasonably request.
- 3.2 With regards to the Telephony Service, we will not provide you with a telephone handset for use with the Telephony Service.
- 3.3 If there is a fault with your Service, you should contact our Customer Services (for details please see the Contact Us Section at the start of Part 2). You agree to undertake the diagnostic tests requested by our Customer Service representatives in order to try and determine what the fault is. We will try to resolve any fault by midnight on the second weekday (not including public and bank holidays) after the day you report the fault to us.

- 3.6 You will take all reasonable care to ensure that Service, including any equipment we provide to you, are kept in good working order. You must not modify or in any way interfere with any equipment we provide to you. You will be responsible for the reasonable costs of engineer call outs, replacement equipment and/or labour charges if:
 - (a) you have agreed to a visit from our engineer and you or someone over the age of 18 authorised by you is not present and/or if the engineer is not able to come onto the Premises or gain access to the relevant equipment, or you do not follow our reasonable instructions to prepare your Address for the engineer's visit;
 - (b) the engineer attends but finds there is no fault with your line;
 - (c) we reasonably believe that the fault was caused by you or by anyone for whom we are not responsible adding to, modifying or in any way interfering with your line, or by your equipment or any equipment we provide to you;
 - (d) the fault is found to exist as a result of your failure to follow our reasonable instructions or these Conditions; or
 - (e) the fault is on any part of your telephone line beyond the primary telephone socket onwards inside your home, and has not been caused by us or anyone for whom we are responsible.
- 3.7 Details of engineer call out fees, replacement equipment costs and labour charges can be found in our Price List.
- 3.8 You agree to follow any reasonable instructions that we may give you and to allow us access to your Address if we need it. You also agree to provide a suitable and safe working environment for us (including any subcontractors or agents acting on our behalf) and/or Openreach as our

Equipment relating to the Broadband Service only - the Router

- 3.9 To be able to receive and use the Broadband Service you will need an existing telephone line and a computer of minimum specification. Please refer to our Website for further details of the minimum computer specification that is required. You accept you may need to modify your computer slightly to make it operate with the Broadband Service. It is your responsibility to ensure that such modifications do not invalidate the terms of any warranty that you may have concerning your computer. We will not be liable if any such warranty has been invalidated as a result of work carried out by you, us or our agents (including Openreach) to make your computer operate with the Broadband Service, except in the event of our negligence.
- 3.10 As part of the Broadband Service we will supply one Router to you under this Contract.
- 3.11 We will send the Router to your Address and you must comply fully with all reasonable installation instructions and advice that we provide to you.
- 3.12 The Router we provide to you as part of Broadband Service will remain the property of First Utility. The software in the Router and in any other equipment provided to you by us or on our behalf for use in conjunction with the Broadband Service is also owned by or licensed to First Utility.
- 3.13 The Router and any other equipment provided by First Utility (or on its behalf) for use in conjunction with the Broadband Service are not supplied as being capable of being used to access any other internet service.
- 3.14 You must inspect the Router as soon as you receive it and tell us of any damaged or missing items within 7 days of receiving the Router by calling Customer Services. We will then send you a replacement Router or any missing parts.
- 3.15 If we send a replacement Router, you must return to us the faulty Router (including all additional items such as power cables and micro-filters) to us using the pre-paid returns envelope which we will provide you with. We will accept proof of postage as proof that you have sent us the faulty Router. If we do not receive the Router back within 30 days after you notify us of the fault, we may charge you for the replacement Router. For further details regarding the price of the Router, please see the Price List.
